We are privileged to offer a recent & significant find, this being a West Australian wages record book for the period August 1934 to July 1937 containing "Emergency & Hospital Tax Cancellations" compiled by the Adelaide Timber Company Ltd located at East Witchcliffe, WA. We have decided to leave the book intact until after the auction although it is provisionally offered in 5 separate lots. If a single buyer is the successful bidder on all five lots the book will remain intact giving the buyer the option of keeping it intact or of breaking it up accordingly. In the current market the Tax stamps in the book have a total Elsmore catalogue value of \$140,000 to \$150,000 with the £5 Financial Emergency Tax stamps valued at \$850 each & the £1 Hospital Fund stamps valued at \$250 each. Should this holding be broken up & offered on the open market it is hard to imagine that the current high catalogue values could be maintained. Never-the-less there are some extremely rare multiples on offer in each of the 5 sections. Each section also contains both Emergency Tax & Hospital Fund stamps with denominations of less than 10/- not been listed. Overall the cond of each of the 5 sections is fine. Only a few stamps have been damaged when separated from the sheets. The Financial Emergency Tax Act of 1931 reduced annual salaries by between 18% & 22½%. The Act came into effect on 1st December 1932 & was withdrawn 1st August 1940. While over 250,000 10/- & £1 stamps were sold only 15,923 of the £5 value were purchased. The Hospital Fund Act of 1930 required a deduction of 1½d per £1 from employees wages. The Act came into effect on 1st January 1931. This wage imposition was suspended on 1st July 1942. In this period approx. 120,000 of the 10/- denomination were sold & less than 90,000 of the £1 value. Hence the significance of the "find" can be easily seen! (selected images on inside back cover of catalogue)
